

St. Paul's is committed to providing worship opportunities to ensure all have an opportunity to safely worship. Below you will see different ways to worship and what to expect at each service. **Newly updated information is highlighted in yellow.** We will continue worshipping in our sanctuary along with continuing to stream worship on our Facebook page.

Most Importantly: If you are sick or experiencing symptoms of COVID, colds, flu, respiratory issues, please worship online, **until symptoms subside**, for the health and safety of others.

9:30 AM Indoor Worship

Masks	Masks optional. Disposable surgical masks and KN95 masks are available for your use, prior to entering the sanctuary, if desired.
Communion	Communion will continue to be distributed via disposable communion kits
Bulletins	Weekly bulletins are emailed out by Saturday of each week and also found on St Paul's Website—please bring with you to worship, if desired. Our indoor worship service can be viewed on our screen via PowerPoint, so bulletins may not be necessary for some.
Offerings	Offering container is available as you enter the worship space for placing your offerings before or after worship. Offerings can also be donated online anytime for those who prefer that option.

ONLINE Worship—for those who are uncomfortable or unable to worship in person.

This service is available on St Paul's Facebook page: www.facebook.com/stpaulscasco

Communion	Please contact the office to pick up disposable communion kits for home use. Or you can use any liquid available, ie water, juice, wine and any type of bread available, ie cracker, bread, roll, etc, Follow the words during communion on the PowerPoint screen.
Bulletin	Weekly bulletins available on our website or via email every Saturday
Offering	Offerings can be donated on our webpage: www.stpaulscasco.com , select DONATE or mail to the church: 5322 Palms Rd, Casco MI 48064

Let's continue working together to keep everyone safe while worshipping at St. Paul's.

NOTE: These protocols may change at any time as new information or COVID outbreaks occur.
